

Notes – CEDEN User Group Meeting

Date: August 16, 2018

Item No.	Item
1	<u>Welcome</u>
2	<u>Updates</u> <ul style="list-style-type: none"> ➤ <i>Data Review Categorization Workgroup Update</i> ➤ <i>CEDEN Modernization Project</i>
	<u>Notes</u> <i>The Data Review Categorization Workgroup met prior to the general User Group meeting and agreed on a few critical fixes, that have since been implemented and are reflected on data.ca.gov. Future meetings need to be scheduled to work through other comments made on individual rankings.</i> <i>The internal CEDEN Modernization Project team is developing more detailed requirements for a modernized system. When a draft list has been developed, we will circulate the relevant parts for review.</i>
3	<u>Toxicity Output</u> Summary toxicity data has been posted on the State’s Open Data Portal (data.ca.gov). The workgroup will continue to work on an ongoing data export method that will be more user-friendly than what the Advanced Query Tool (AQT) provides.
	<u>Notes</u> <i>The CEDEN web services will be the likely route through which the toxicity data will be served. We have been working on adding the fields that will likely be needed (e.g. those fields that are contained in the data entry template) to the web services.</i>
4	<u>Template Modification Dispositions</u> Review worksheet noting changes. https://docs.google.com/spreadsheets/d/1gvesd1QNVlqngxcI6K0vVsGLI7f4Cv5C0mkwhwAeXMY/edit#gid=0
	<u>Notes</u> <i>The outcome of the template modifications that were suggested earlier this year are noted on the spreadsheet referenced above. These should be implemented in January 2019.</i>
5	<u>Wrap Up</u> <i>Next meeting: September 20, 2018</i>
	<u>Notes</u> <i>A September meeting was not held. The October meeting is scheduled for October 18, 2018.</i>
