

Notes – CEDEN User Group Meeting

April 16, 2020

1. Welcome

2. CEDEN 2.0 and Template Changes

The group discussed the CEDEN/SWAMP modernization proof of concept project. The project is to customize an existing water quality product, EQuIS, with which a number of meeting participants were familiar.

Prior to the meeting, comments were requested on initial edits to the chemistry upload templates. These comments will inform the subsequent mapping of the template to the EQuIS format, which will likely prompt further proposals and changes. The current round of comments can be found at https://docs.google.com/spreadsheets/d/1XjApnJa__wx4b6pZFRT2ghv-SHV_4RTsAekGnFEjx94/edit#gid=0.

The pilot project is scheduled to be completed in March 2021.

3. Wrap up

The next CEDEN User Group meeting is scheduled for May 21, 2020.
